

# Kitchen Degreaser

## Technical Data Sheet

### Product Description

*Mum's Helping hands Kitchen Degreaser* is a multi-purpose cleaning product for use on ovens, hobs, vents and hoods. Derived from the *Laminaria Digitata* plant - a sustainably harvested Atlantic seaweed - the product is 100% environmentally friendly and a like-for-like replacement for harsh chemical degreasers.

### Application Rates and Methods

*Mum's Helping hands Kitchen Degreaser* is an incredibly versatile cleaning product. Apply the degreaser to oven fronts, Hobs, Extractors and kitchen surfaces in neat form and then work away with a sponge/cloth and warm water to easily remove greasy residues.

For lesser contaminations or for general surface cleaning, the product can be diluted up to 1:10 with cold water prior to application.

### Typical Physical Characteristics

Appearance: Brown liquid  
Relative Density: Typically 1.05g/cm<sup>2</sup>  
Solubility in Water: Complete  
pH (as concentrate): Typically 8.5

### Storage and Handling

*Mum's Helping hands Kitchen Degreaser* had a shelf life of 12 months in original container. Protect the product from frost; where product has been stored in cold temperatures, allow it to reach ambient temperature prior before use. Handle in accordance with good practice. No special precautions with product alone.

### Disposal

Contaminated product and/or rinse water should be disposed of in accordance with local regulations.

### Health and Safety

*Mum's Helping Hands Kitchen Degreaser* should not cause any health and safety issues when used in accordance with safety instructions. Further detailed information can be obtained from the Material Data Sheet.
